Setting Up an Apple iOS Device for DUO

**SET UP AN APPLE iOS DEVICE**

After you log into a WVU application that requires additional verification (such as [Login.wvu.edu](http://Login.wvu.edu)), you will see the DUO Authentication screen. Depending on whether you are already enrolled in Duo at WVU, you will either see the regular authentication screen or the first-time setup screen:

### Already Enrolled in Duo

1. If you already have a device associated with your Duo account, click on the **Add a new device** link on the left-hand side of the DUO Authentication box.
   a. Choose an authentication method to prove it's you adding this device.
   b. Accept the authentication request by Push or passcode.

### First Time Duo Setup

1. If you are adding a device in Duo for the first time, click the **Start Setup** button to proceed to set up your phone.
   
2. Duo will ask what type of device you will be adding:
   a. Click the **Mobile phone** radio button for an iPhone,
   b. Click the **Tablet** radio button for an iPad.
3. Click **Continue**. The system will ask for your phone number.

8. You will need to go to the **Apple** app store, and search for the Duo app.
   a. Open the App Store application.
   b. Search for ‘Duo Mobile’.
   c. Install the application on your phone.
9. Once you have installed the Duo Mobile application on your phone, click the I have Duo Mobile installed button on your computer window. You will now be asked to activate Duo Mobile via a QR code.

10. Activate your device
   a. On your phone or iPad, tap on the Duo Mobile app to open it.
   b. Tap the PLUS sign at the top of the screen to ADD ACCOUNT
   c. Hold your device’s camera up to the computer screen with the QR code
   d. The Duo app on your device should communicate with the Duo Authentication that is embedded in the WVU authentication system, and a green checkmark should appear on the QR code.

11. Click the Continue button. Duo Authentication should now tell you that your iOS device was successfully added!
   You may set your default device and your preference for the type of authentication you prefer to receive, or click Continue to login to set those options later.

12. Click Continue to login. You will be taken to the Duo Authentication screen, where you can now authenticate your login.
13. Choose an authentication method.

   a. Click **Send me a Push** to receive a notification on the Duo Mobile app on your mobile phone. You will see a request that you must click, and then choose Approve. If the notification does not appear immediately, you may need to open the Duo Mobile app to see the notification.

   b. Click **Enter a Passcode** to receive a six-digit passcode on your mobile device. You must open the Duo app, click the **key** icon to get a code, and type the code into the authentication screen in your browser. You may also obtain passcodes from the Service Desk.

14. You have now successfully logged into WVU’s authenticated systems.
